Introduction Occuring

With this thesis, authors aim is to examine the CSR perceptions of active non professional investors and potential non-professional investors, and how perceptions influence their investment decisions. Furthermore, they want to make practical and theoretical contributions to the literature and the public by focusing on the investment decision-making affected by investors' CSR perceptions.

To find the location of the printed version click on the tab **Occuring** in the end of the entry.

Click on **EBS Raamatukogu**.
